Protocol for action in the event of class suspension or school closure decreed by the authorities in cases of alert or emergency.

Alicante, January 2026

1. Scope of application.

This protocol shall be applied immediately and automatically whenever:

- The competent authorities (local, regional or national) decree the suspension of face-to-face teaching activities.
- There is an officially communicated alert or emergency situation (climatic, health, safety, etc.) that involves or leads to the preventive closure of the school by decision of the authorities.

2. General principle.

Official communication from the competent authorities regarding the suspension of classes or closure of the school affecting the city of Alicante shall be sufficient for students and families NOT to attend the school, without the need for official or additional confirmation from the School.

This measure is mandatory until the competent authority orders the resumption of classes.

3. Official information channels.

- Alicante city Council
- Valencian Regional Government – Department of Education
- Government Delegation
- Civil Protection and Emergencies
- Official website and communication channels of the educational centre

4. During the suspensión period.

- The School will remain closed to students.
- School staff will follow the instructions communicated in each case by the Management.

5. Resumption of activity.

- Once the alert has been lifted and the closure or suspension by the authorities has ended, classes will automatically resume at the usual time.
- The reopening will be communicated to the entire educational community through the same official channels.

6. Reminder.

This protocol is preventive, automatic and applicable to any type of emergency or alert.

The suspension of classes or closure decreed by the authorities is binding, without the need for additional confirmation by the School Management.
